

environmental

policy statement

Datatel is committed to a policy of protecting the environment in all its activities, prevention of pollution and continual improvement in environmental systems.

Datatel's commitment will be demonstrated in its approach to satisfying the statutory rules and regulations which apply to the environment along with the various client requirements specific to a project.

The company shall:

- Adopt and comply with, as a minimum, all statutory requirements applicable to its operations.
- Where a client's requirement exceeds the company's requirements, accept the client's requirement as taking precedence.
- Implement and maintain Procedures and Work Instructions relative to the environmental requirements.
- Provide training to employees relative to this Environmental Policy and associated Procedures and Work Instructions.
- Operate in a manner to protect the Environment and the Safety and Health of employees.
- To ensure that subcontractors conform to relevant requirements of our Environmental Policy.
- Promote the adoption of sound environmental practices by all personnel through the improvement of overall environmental awareness.
- Record and report environmental incidents to government bodies and clients as required.
- Continually improve our ISO 14001:2015 Environmental Management System to enhance our environmental performance

John Prichard
